

Testimonials of STEVEN MICHAEL KING from Blogtalkradio's Steven Michael King Presents the Best In The World and on Facebook at Steven Michael King Presents the Best In The World regarding Steven's Healings, Products, Seminars, Shows, and Consulting

*"The last 5-6 years my intensity of study with well known masters from around the world has increased to become part of my regular schedule.*

*Steven worked on me a few minutes at an expo, yet I felt the effects for hours, so I attended his 3 hour intro with a friend. We both felt the energy very intensely (at other seminars I usually felt very little energy). We felt energy coming from his hand gestures. We saw and felt energy during various simple exercises and techniques. Most importantly, all of us attending (including those with no training) seemed to experience immediate results practicing on ourselves and each other.*

*I learned more in 3 hours than many week long intensives, which helped me integrate (in practical ways) my various training and we left with skills we could apply in all aspects of daily life."*

ALANA GORFAINE, Las Vegas, NV 7/7/99

*I heard about STEVEN MICHAEL KING's healing skills from folks I know on whom he had worked at a recent expo in Las Vegas, NV.*

*Although I was very impressed with the depth and breath of his knowledge along with his experience, I was mostly impressed by the results he produced. In fact, my own experience with his work was that it was the strongest and most intense energy work I have experienced in my many years of being interested in alternative health.'*

Dennis Richards, Former Radio Show Host "Health Talk Radio", KLLV AM 1230, Las Vegas, NV 6/24/99

*I am a fifty-three year woman with painful, crippling rheumatoid arthritis, I first heard Mr. King on a Health Talk radio show hosted by Dennis Richards about a month ago and I was so fascinated by what I heard that I began to take notes. When I called and talked to him on the caller line, new dimensions of understanding began to unfold. It's worth a try I said to myself. I began the breathing exercises he described. Invigorated by the first exercise, I went on the next one. After a few minutes I found that the knee wasn't as sore and moving it became easier.*

*Over the phone Steven gave me more instructions and various techniques. I integrated these techniques in my morning exercise routine, which energizes me. I noticed great results, less fatigue, greater physical strength, not to mention focus, with less pain.*

*If at all possible, I recommend that you take the time to come to his booth and attend one of his classes. It will redefine your understanding and will revitalize your life.*

Ruth McPherson, Las Vegas, Nevada 7/99

*"... I was privileged to witness Steven King working with people...The scientific tools were able to document or validate what effect the metaphysical tools had on the human and on the human energy field..."*

*For several years I have been working as a Reiki practitioner and know basically how energy works and how it can be manipulated to facilitate healing... It was very impressive to walk up to Steven's booth and see the energy field and the work done being documented scientifically. I witnessed the colors of the auric field, the changes in the energy patterns, changes in the spin of the Chakras....*

*I was so impressed with what I saw that I scheduled a session with Steven... At home, while I watched the video (taken during the session) I could see the affects of how he worked with me and the changes that were brought about... as he worked in each area. As issues came up, there was a noticeable muddiness in my aura which I could see clear as he used various cleansing techniques...*

*These techniques are easily learned and mastered by anyone... We got to experience sending and receiving energy, blocking negative energy, breathing techniques to increase energy flow, relieve pain and release negative energy to name a few. I saw how simple, easy and effective these techniques are...*

*I am grateful for the opportunity to experience these tools and to utilize them in my own life and practice. They have been very beneficial to me. I am looking forward to attending other workshops when available in my area."*

Sharon Labrum, Las Vegas, Nevada. 7/99

*I recommend Steven Michael King highly as both healer, trainer and mentor. I was hit several years ago (severely disabled and nearly killed)by a limousine. I also had a serious poly-drug addiction, including heroin. I had learning and concentration problems all my life. After several sessions, I'm now putting my life back together and beginning to pursue my dreams (and doing things I thought were impossible) thanks to Steven. My father lost much of his hearing in Vietnam and often could not hear snapping fingers more than 2-3 feet away from his good ear. After a few minutes with Steven, he could hear soft snaps for 15-20 feet. My six year old Godson had ADHD, "lazy eye" and behavior problems from birth. After a couple of short sessions with Steven, he now reads and behaves almost like a model child. I've watched Steven demonstrate and teach a variety of "mind over matter" and paranormal abilities, including medium contact martial arts against multiple opponents with weapons, occasionally throwing people without contact! All of his (mind over matter) stuff appears easy and fun to learn and apply on other people, plants and animals, even under adverse conditions.*

Regarding Steven Michael King & Transformational Breakthroughs

My involvement in the expo industry for over a decade includes helping organize expo's, assisting and booking exhibitors and speakers at special events and other aspects of the business. I mostly focus on expo's relating to health and fitness, integrated and complimentary medicine, healing, human potential/personal development, holistic living and new age categories.

I've attended lectures, demonstrations and workshops given by many of the world's best authors, doctors, therapists, healers, nutritionists, scientists, researchers and mystics allowing me to have substantial perspective to evaluate various technologies, systems, methods, healers and teachers.

In May of 1999, while assisting with an expo in Los Vegas Nevada, I met one of the most gifted individuals I've ever met, Steven Michael King of Transformational Breakthroughs, while watching people experience workshops, demos & products, potentially one of the most amazing models I've ever witnessed and an opportunity I believe any visionary expo owner or seminar/workshop promoter should consider vigorously featuring.

Transformational Breakthroughs involves two to three booths combined. Their booth was easily one of the busiest, drawing peoples eyes from afar with various gold plated geometric energetic devices, causing amazing reflections of light, and keeping hundreds of people at the booth with energy demonstrations and healings, videotaped as people are monitored live by energy imaging and other scientific equipment. Technologies are demonstrated and explained in front of the crowd, many people coming over and over, bringing or sending more referrals to the booth.

The Transformational Breakthroughs booth is a highlight for any expo, and more compelling are Steven Michael King's workshops and panel discussions. "Beyond Tantra", "Sending Energy Over a Distance" and "Beyond Mind Over Matter" were amongst the best attended and received (rooms were at capacity, with more wanting in) with consistent reports, including testimonials, customer feedback sheets and video documentation of folks reporting experiencing incredible healings, seeing and feeling energy and especially women (see video, testimonials and customer feedback sheets) reporting wave after wave of pleasurable, luminous glittering rainbow energy that would come flooding through them, over and over again, each time more intensely! Mind blowing to some (especially nationally and internationally renowned doctors, scientists, researchers and healers) was Steven's adeptness teaching and answering questions. People attending his workshops were getting consistent measurable results on various equipment (whether showing auras, Chakras, biofeedback, EGG, electricity flowing through acupuncture meridians, blood micro-capillary circulation and other equipment measuring various physiological changes), producing results in themselves, or each other, that normally require years of training and practice – All (attendees contacted) learned in minuets or a couple hours!

Attendees and experts were so impressed with Steven's aptitude, that he was invited to speak at an anti-aging panel discussion, being the only one without an MD, Ph.D. or other advanced degree. Steven spoke from energetic and scientific perspectives, as the last lecturer, explaining how each of the systems previously described, fit together in complimentary ways as part of a whole. You could see people's physiology changing as Steven kept the audience fascinated while raising their consciousness, connecting dots and explaining things so well and to the point that vast portions of the questions got addressed to him, and other experts on the panel occasionally deferred, at least in part, and/or asked him to comment and/or summarize.

Steven did such an incredible job of highlighting, integrating and summarizing the other experts best points, that after the discussion, panel and audience members gave Steven their business cards, clearly wanting to network. Steven handled this gracefully and with class, making the panel members feel comfortable, and obviously glad he accepted the last minute invitation to attend.

A well known radio show host, Dennis Richards, about to do his last couple of "health talk radio" shows attended. Because so many people were so enthusiastic about Steven's very special attributes and talents, he asked Steven to be special guest speaker for the very last show, an honor in anyone's book. The show went fantastic.

Conclusion – It is my considered opinion that both Steven Michael King and "Transformational Breakthroughs" (properly promoted) are an incredible draw for any expo organizer or seminar/workshop promoter, especially if teamed up with radio and/or television, or complimentary to any established holistically oriented doctors, scientists, healers and/or even perhaps psychics (since he's quite skilled there too). Steven's incredible ability, on demand, to manipulate energy and do other things, under scientific conditions, is certainly, on a world class level, as is his ability to teach, answer questions and thoroughly entertain.

I've heard other expo organizers, seminar /workshop promoters and attendees (see testimonials, feedback sheets and video) agree Steven, Transformational Breakthroughs and related Tantra, energy, mind over matter, etc. demonstrations are a draw for a variety of expo's and people keep bringing referrals, due to the specialness, quality and intensity of the experience.
